

AUTHORIZE

RBRO SOLUTIONS

Authorize is a complete system that provides peace of mind, keeping the 'wrong' people out and getting the 'right' people in... quickly.

- iManage Work 10 compatible
- iManage Cloud compatible

Authorize is a complete system that provides peace of mind to organizations dealing with the issue of ethical wall security and security management. *Authorize* makes it easy to create security templates based on any combination of metadata values or to create dynamic teams and apply them to any content at any time.

Authorize is composed of two sets of functionality: *Ethical Walls* and *Team Management*.

Authorize: Team Management

This feature of *Authorize* provides the ability to create teams of users and match them to specific custom field values or to specific iManage Work items. A client component allows managers to apply teams to iManage Work items and to manage the users within a team.

Authorize: Ethical Walls

This feature of *Authorize* provides administrators the tools to create access and denial user lists for selected metadata. When a new document is saved into the DMS, ethical wall security is instantly applied based on the client or matter information. Changes to ethical walls are applied to documents by a task that may be automated to run periodically.

PRODUCT FEATURES

Authorize

- Dynamic metadata-based security
- External security validation
- Multi-layered prioritized security
- Define security exemptions
- Wall-team and user expiry

Team Management

- Group-based security
- Teams based on specific iManage Work content
- Teams based on strategic groups or departments
- Delegated management
- Automatic team generation

Ethical Walls

- Instant ethical verification
- Flexible conflict resolution options

ABOUT RBRO SOLUTIONS

A premiere iManage partner for over 15 years and trusted globally by over 400,000 business users, RBRO Solutions is dedicated to helping organizations get the greatest value from their business content and work processes by extending the power of their iManage Work solution. With over 700 iManage engagements, RBRO applies best practices and know-how to simplify iManage implementations, upgrades and migrations.

RBRO can transform how organizations get work done with adoptable and scalable improvements in business efficiency and agility—that integrate seamlessly across corporate systems—adding value to the iManage Work solution, enabling you to decrease your overall cost of ownership by simplifying tasks and empowering users.
