

EXPORT MANAGEMENT

RBRO SOLUTIONS

Automates the process of exporting documents and entire workspace folder structures

- Mass export documents from iManage Work on a scheduled basis
- Customize export criteria to suit an organization's specific needs
- iManage Work 10 compatible
- iManage Cloud compatible

Export Management allows administrators to schedule and automate the mass export of documents from iManage Work. Exports can include the entire workspace and folder structure or a custom folder structure can be created.

The mass export of documents can take up a significant amount of time, which can have an impact on the allocation of IT resources. *Export Management* takes this load off of the IT department by allowing administrators to configure the scope of the export task and have it run at a specific time or on a scheduled basis.

PRODUCT FEATURES

- Export documents based on metadata or specific database queries
- Create custom folder structures based on metadata values
- Export the most recent document version only or export all document versions
- Overwrite previously exported documents that have been updated
- Search and replace the names of documents and folders

Export Management is an RBRO WorkSite System Manager (WSM) snap-in. The RBRO WorkSite System Manager is a proprietary enterprise administration solution that allows organizations to gain a greater degree of control over their iManage Work system through a single source. It is provided at no charge with the purchase of Export Management or other snap-in tools.

ABOUT RBRO SOLUTIONS

A premiere iManage partner for over 15 years and trusted globally by over 400,000 business users, RBRO Solutions is dedicated to helping organizations get the greatest value from their business content and work processes by extending the power of their iManage Work solution. With over 700 iManage engagements, RBRO applies best practices and know-how to simplify iManage implementations, upgrades and migrations.

RBRO can transform how organizations get work done with adoptable and scalable improvements in business efficiency and agility—that integrate seamlessly across corporate systems—adding value to the iManage Work solution, enabling you to decrease your overall cost of ownership by simplifying tasks and empowering users.
