

LINK2DMS

RBRO SOLUTIONS

Link2DMS integrates popular, non-integrated applications with iManage Work—from Classic Client to Work 10 Professional.

- iManage Work 10 Optimized
- iManage Cloud compatible

While users can save and open ‘integrated’ documents such as Microsoft® Word, Excel, PowerPoint and Adobe® Acrobat® files within the iManage Work environment, this is often not sufficient for today’s workplaces. With the increasing complexity and variety of work performed by many organizations, the use of programs outside of the accepted integrated suite of products is commonplace. As a result, the ability to effectively manage all documents within the document management system (DMS), regardless of file type, can be limited.

Link2DMS Intercept makes some of the most popular non-integrated applications into integrated applications. *Link2DMS Intercept* is a powerful and easy-to-use software tool that enables you to save and open documents created with non-native integrated applications directly within iManage Work. Use to integrate web browsers and web-based applications on the browser level or only on designated pages.

Link2DMS Conduit is a service component of Link2DMS that provides a connection to documents in iManage Work through standard Windows interfaces, allowing applications that use external links to operate within the iManage Work environment as they do in a file system.

PRODUCT FEATURES

- Version 6.0 features a new user experience
- Administer from anywhere
- Centralized administration with iManage Control Centre
- iManage New Professional experience integration
- Reduces risk and increases matter/engagements/projects visibility by allowing non-integrated documents to be saved within iManage Work
- Improves productivity and streamlines the e-filing process
- Allows users to save file types not supported within a standard iManage Work environment
- Directly uploads documents from the DMS to websites and downloads documents from web browsers to the DMS—activity is automatically dated, tracked and detailed
- Allows users to save Excel workbooks and other types of documents containing externally linked data, and the documents to which they are linked, in the DMS without breaking the links

ABOUT RBRO SOLUTIONS

A premiere iManage partner for over 15 years and trusted globally by over 400,000 business users, RBRO Solutions is dedicated to helping organizations get the greatest value from their business content and work processes by extending the power of their iManage Work solution.
