

TRANSPORT QUICK COPY

RBRO SOLUTIONS

Copy folders and documents to other iManage Work databases within DeskSite or FileSite

- iManage Work 10 compatible
- iManage Cloud compatible

One of the most basic functions that firms perform within their iManage document management system (DMS) is copying of documents, folders and folder structures from one library location to another. This functionality is useful for pre-creating folders and document templates for new workspaces or preserving content at a point in time, while continuing to work on different copies of the documents.

Transport Quick Copy is an end-user migration tool that enables users to copy folders and documents to other iManage Work databases within DeskSite or FileSite (i.e., within their own iManage Work library).

PRODUCT FEATURES

- Copying documents, folders and folder structures between libraries does not require the export of content outside of iManage Work.
- Populate new workspaces with template documents.
- Select documents and folders and copy them to other connected iManage Work libraries or new libraries within the same server.

ABOUT RBRO SOLUTIONS

A premiere iManage partner for over 15 years and trusted globally by over 400,000 business users, RBRO Solutions is dedicated to helping organizations get the greatest value from their business content and work processes by extending the power of their iManage Work solution. With over 700 iManage engagements, RBRO applies best practices and know-how to simplify iManage implementations, upgrades and migrations.

RBRO can transform how organizations get work done with adoptable and scalable improvements in business efficiency and agility—that integrate seamlessly across corporate systems—adding value to the iManage Work solution, enabling you to decrease your overall cost of ownership by simplifying tasks and empowering users.
